

WHAT TO DO

One of the best ways to see London is by taking a boat trip up the Thames, and London R.I.B Voyages is the way to do it! The firm offers fantastic and exciting trips on the River Thames in their specially designed boats, which are of the same type used by the coastguard and Navy. Providing enough speed and thrills to ensure they're enjoyable whatever time of year it is, and a fun and quirky tour to boot, it's the ideal way to kick your honeymoon off in style. As you leave the pier, the boat starts sedately, then becomes much faster. Then, when you think it's about as fast as you're going to get, it kicks into action, rocketing from one side of the river to the other! James Bond had nothing on this! Whether you're in London for one day or several, this should definitely be top of your to do list. For further details call 020 7928 2350 or visit www.londonribvoyages.com.
